# Congoleum® The AirStep® Story

AirStep® is a Congoleum® exclusive in the flooring industry. The AirStep® products developed by Congoleum® are the better alternative to fiber-glass. This advantage of the AirStep® products comes from their UltraTec™ construction. Rather than a fiberglass inner liner, AirStep® uses a felt inner liner, which allows for the small amount of size change necessary with natural temperature changes. The products are back coated with the same amount of vinyl that is used on the top layer allowing the product to remain flat when loose laid.

The Congoleum® AirStep® products can be loose laid, perimeter adhered or fully adhered over a wide variety of substrates, without the worry of buckling. AirStep® products are the only products in the industry that offer a lay flat, stay flat, no buckle guarantee.

Luxe Plank Slate Multi Color

**Armstrong®**  
**LUXE PLANK®**  
with Rigid Core Technology

Armstrong's LuxePlank with Rigid Core Technology is an ideal solution for uneven subfloors. Thick, sturdy planks integrated with a rigid composite core and backed with an acoustic cork underlayment can be installed right away with no acclimation time. Fast and simple locking technology secures the planks together and beautifully hides minor subfloor irregularities.

- 100% waterproof\* planks— perfect for baths, kitchens, basements, mud rooms and laundry rooms
- Quiet – cork back reduces sound transmission
- Easy to clean & long-lasting – durable wear layer and factory-applied coating means floor resists scratches, stains and wear, making clean up easy
- Kids, pets, heavy traffic – Luxe Plank flooring handles it all

Luxe Plank Chateau Gray

\*When exposed to water Luxe Plank® tiles/planks will not swell, buckle or lose integrity. See warranty for details.
