COREtec Plus™ Engineered Luxury Vinyl Flooring

COREtec Plus® represents the next revolution in luxury vinyl flooring. It's a great alternative to glue down luxury vinyl tile (LVT), solid locking LVT, or laminate flooring. The patented construction of COREtec Plus® features our innovative COREtec core structure, which is an extruded core made from recycled wood and bamboo dust, limestone, and virgin PVC. Since COREtec Plus is 100% waterproof, it can be installed in wet areas and will never swell when exposed to water. COREtec Plus® is inert and dimensionally stable; it will not expand or contract under normal conditions. Plus, it never needs expansion strips in large rooms. Each COREtec Plus plank has an attached cork underlayment for a quieter, warmer vinyl floor that is naturally resistant to odor causing mold and mildew. And with a wide array of hardwood, stone and slate decors, COREtec Plus® has the look, style and unmatched performance for any room in your home.
